Subject: WV spill articles and resources

Potomac DWSPP:

I'm sure you have all been following the West Virginia spill closely. I wanted to send along a couple of resources related to the Partnership's efforts. A few of the articles below make good points about how chemicals and water supply are regulated and how reforms are needed.

New Stories

- [For West Virginians – Still Major Unknowns about Chemical Spill](#) (NPR)
- [W.Va. Spill Shows Vulnerability Of Water Supply](#) (AP)
- [How safe is our drinking water?](#) (Slate)
- [Spill similar to Elk River incident could have a greater impact in Washington County](#) (Herald Mail, Washington County)
- [West Virginia Begins to Lift Water Ban](#) (WSJ)

West Virginia American Water - Public information

- [Status Map](#)
- [Press Releases](#) (could serve as messaging examples)

The spill will be a topic at our March quarterly meeting. It would be great to hear from you on the type of inquiries you received. We can also discuss tasks the Partnership might consider given what was learned from this event.

Best,
